CITY OF PRESQUE ISLE

Mission Statement

It shall be the mission of the City of Presque Isle to maintain its regional, economic, educational, transportation, medical, and cultural significance, to provide a wide range of municipal services to make Presque Isle a safe, prosperous and attractive city in which to live, to work, and to visit; meeting needs by planning aggressively and by partnering with local, county, state and federal government, while involving the citizens of Presque Isle.

To meet these commitments, our goals for the future are:

1. To attract and retain job opportunities and enhance our tax base through managed economic and community growth.
2. To promote a community environment that emphasizes education, transportation, medical, and cultural excellence through community infrastructure and emerging technologies.
3. To maintain the existing level of municipal services.
4. To ensure the completion of, and compliance with, a Community Comprehensive Plan.
5. To serve as the catalyst for the coordination of governmental services in central Aroostook County.
6. Increase citizen involvement.
7. To provide all municipal services in the most efficient manner possible.

Approved by the City Council on August 4, 2003

Amended by City Council on April 6, 2009.

City Council Members — 2008

Walt Elish, Chair

I am pleased to provide a report for the City's 2008 Annual Report to the citizens of Presque Isle. As you read through the Annual Report, you will find that the City continues to provide high quality services, to not only the citizens of the City but, to the region as a Service Center Community. It's one of the unique features of the City that makes it an exciting place in which to work and live.

The best way to describe 2008 would be that it was a "roller coaster" year. The 2007-2008 winter season saw record-breaking snowfalls. Even those who love the winter season had difficulty dealing with almost 200 inches of snow and the record high water levels in the spring. Fortunately for Presque Isle, we did not experience any significant amount of spring flooding. Unfortunately, our neighbors in Southern Aroostook County and the St. John Valley were not so lucky because they had record flooding of historic proportions. All City employees who dealt with the record snowfall for the winter of 2007-2008 winter season are to be recognized and congratulated for their hard work.

The City's protection from flooding is the result of several watershed dams that protect the City, some of which are located in the watersheds outside of the City. These dams include Mantle Lake, Hanson Lake, Arnold Brook Lake, Burntland, Whitney Brook, and State Street. Most of these dams were constructed over 30 years ago. They all function well in protecting the City.

In 2008, the City continued its pursuit of a new by-pass for the City. There were many meetings, hearings and opportunities at both the State and local levels for interested citizens to comment on the various proposed routes for a by-pass. The City Council endorsed a by-pass to the east of the City that was the result of combining portions of previously identified potential by-pass routes with one that included input from landowners who's land would be impacted, especially for the section located between the Fort Fairfield Road and the Conant Road.

The by-pass endorsed by the City Council, would be constructed in sections. The first section would be a portion between the Fort Fairfield Road and the Conant Road. This section would help address some of the heavy truck traffic that uses Main Street. The next section would be southerly from the Conant Road to U. S. Route 1, southerly of the City.

The third and final section would be a new bridge crossing the Aroostook River extending northerly to U. S. Route 1, near the Brewer Road.

The by-pass issue is one of importance to the City in its long -term transportation policy. It is also one that has engaged numerous citizens who have provided input, both for and against, a by-pass. As of this writing, the matter is pending before the U. S. Army Corps of Engineers for a determination of whether or not a by-pass is warranted, and if so, which route is the most likely to be permitted by various Federal and State agencies. The process is one that has allowed input for an informed decision.

Another part of the “roller coaster” year included a down-turning economy near the end of the year. Extremely high fuel prices in the first part of the year moderated near the end of the year, and the overall economy experienced a nosedive. The impact of the state of the economy means that there will be considerably less revenues available to the City from such major revenue sources as State revenue sharing and excise taxes. The end result will be that the service level offered by the City, will be negatively impacted. We’re prepared to work hard to maintain as many municipal services as possible while recognizing the state of the overall economy.

On a positive note, the City continues to see growth in its business community. A new national chain hotel is being constructed on Main Street. A new financial institution is also scheduled to be built on Main Street. There are also several other potential new businesses along Main Street that may decide to build in 2009. The economy may be difficult at best right now, but there are still those who believe that Presque Isle is a wise investment for new business. The City continues to become a place of destination.

The potential for a new Community Center took a giant step closer to becoming a reality in 2008. The City purchased three parcels of land on Chapman Street as the future site of the new center. The site compliments and supports the efforts of the Downtown Revitalization Committee in promoting increased usage of downtown area space. While still some years away to actual construction, purchasing the land demonstrates real commitment to this major project.

As we look ahead to 2009 and beyond, it is hoped that the economy will stabilize.

In closing, I want to thank the City Council, municipal employees and the many groups and organizations that work hard to insure that Presque Isle is a place of destination and a great community.

Respectfully submitted,
Thomas R. Stevens
Manager, City of Presque Isle

Northern Maine Regional Airport

650 Airport Drive, Suite 11

Office Hours: 8:00 AM-5:00 PM Monday-Friday

Telephone: 764-2550 Fax: 764-2551

Email: scottw@flypresqueisle.com Web Site: www.FlyPresqueIsle.com

General Aviation: 764-2555

The Northern Maine Regional Airport (PQI) had another very good year for capital improvement projects. The secondary runway, Runway 10-28, was partially reconstructed. In addition to new pavement, new edge lights were installed. While the runway length only increased six (6) feet to an even 6,000 feet, the grass overruns (safety areas) at each end of the runway were extended another 500 feet to

1,000 feet. The Federal Aviation Administration (FAA) funded 95% of the 6.5 million dollar project with the remaining 5% split equally between the State of Maine and the City of Presque Isle. Given that both the pavement and the edge lights were over thirty-years old, these improvements will reduce maintenance costs to the City of Presque Isle. These savings, over time, coupled with the economic impact to area businesses, should pay back the 2.5% contributed by the City of Presque Isle very quickly. With the completion of this project, all the safety provisions at the Airport are now up to current Federal Aviation Administration (FAA) standards. This is a goal that many airports in New England and throughout the country have yet to achieve. A photograph of the nearly completed project is shown below.

As part of the 10-28 project, the Airport was able to work with the FAA to purchase new runway painting equipment. This equipment is needed to paint various stripes and numbers required on airport pavement.

The previous photo illustrates the large amount of painting required on the North/South runway. Some of our old equipment was government surplus obtained from the Air Force at the time that Loring Air Force Base closed. The remainder was old equipment received from the City's Public Works Department. The old equipment did not have the capability to consistently meet the new FAA standards for paint reflectivity. The Airport had received at least one letter of correction of this issue during an FAA Safety Inspection. What is noteworthy is that the purchase of painting equipment has not been eligible for FAA funding in the past. However, we were able to work with the FAA to get the equipment funded by having Airport staff complete the painting for the 10-28 project instead of having a private contractor do it. With the FAA funds, we were able to purchase the new painting equipment. An additional benefit of this equipment is that we can complete our painting in less time thereby reducing the labor costs. The two new pieces of equipment are pictured below.

PQI also won an FAA team award for the 10-28 project. At the FAA New England Regional Conference, the Airport and our engineering consulting firm HNTB were recognized for efforts in completing the Runway 10-28 safety areas ahead of schedule and under budget. There were only three other awards given: Boston/Logan; Manchester, New Hampshire; and the third award went to a retiring FAA employee. Clearly, PQI was in very good company. Completing this project ahead of schedule made it possible for the FAA to reach its national goal for safety area completions in 2008.

Airline passenger loads in 2008 declined by 13% as compared to 2007. In the first three-quarters of the year, these declines were driven by the high cost of crude oil. The high cost of jet fuel resulted in significantly higher airline ticket prices. This problem was further compounded by the traveling public having less disposable income due to high gasoline and heating oil prices. In the fourth quarter of the year, the economic "melt down" significantly impacted both leisure and business travel.

While fuel sales at the Airport declined in 2008, the Airport made significant progress by obtaining new contract arrangements which should increase fuel sales in the future. In June, the Airport was awarded a military contract for jet fuel. The contract allows all military aircraft to purchase fuel at the Airport at significantly reduced prices. This was a necessary step in the process of attracting short-term military training exercises. If the Airport can attract these exercises, the revenues for jet fuel sales will increase significantly.

Respectfully submitted,
Scott Wardwell
Manager, Northern Maine Regional Airport

Editors Note: Presque Isle Air Museum

The Presque Isle Air Museum is located at the Northern Maine Regional Airport, within the main terminal building. The museum is dedicated to the men and women of the armed forces that served at the air base. The museum project is a culmination of efforts by individuals who believe the Presque Isle Airport has an important and interesting history that should be shared.

In early 1930, a subcommittee for the Presque Isle merchants purchased land on the Mapleton Road, built a hangar and constructed a runway. In 1937, Presque Isle purchased the airport and commercial air service and airmail was started. Little did those citizens know that soon the small Presque Isle Airport would have such a large place in history.

World War II Because Northern Maine is closest U. S. land mass to Europe, Presque Isle was selected as a departure point for planes and equipment going overseas. In 1941, Presque Isle Army Air Field (PIAAF) was established. More combat planes left PIAAF for Europe than any other U. S. base. This continued until the end of the war in 1945. Not long after, the winds of war began stirring in Korea.

Korean Conflict Peace did not last long following WWII. The United States recognized the threat of Communism and in November, 1950, the local base was reactivated as Presque Isle Air Force Base (PIAFB). The mission of the base was air defense of the northeastern United States and Loring Air Force Base. Various fighter-inceptor squadrons were assigned to PIAFB. The air defense mission ended June 30, 1959. Next came the missile age!

SNARK Missile Era On July 1, 1959, the 702d Strategic Missile Wing was activated and Presque Isle Air Force Base became the nation's first Intercontinental Missile Base equipped with the SNARK Missile. The SNARK was a high altitude (50,000 ft.) swept wing missile with a self-contained non-jammable guidance system capable of delivering a nuclear bomb 5,000 miles at Mach 0.9 speeds. On June 25, 1961, the missile wing was deactivated and all military activity ceased.

Commercial Aviation Presque Isle's commercial aviation began in 1933 with Boston & Maine Airways (BMA). In 1940, BMA changed their name to Northeast Airlines and in 1972 merged with Delta Airlines. After Delta Airlines left Presque Isle, many carriers such as U. S. Airways and Business Express served the area. All these events have transpired since the City purchased land on the Mapleton Road in the 1930's.

Finance Department

City Hall, 12 Second Street

Director's Business Hours: 8:00 AM-5:00 PM Monday-Friday

Hours for City Clerk/Tax Collector: 8:30 AM-5:00 PM Monday-Friday

Finance Director: 764-2517 Email: pwebb@presqueisleme.us

Accounts Payable: 764-2519

City Clerk/Tax Collector: 764-2509 or 764-2520

Voter Registration: 764-2523

In 2008, the City has once again been recognized by the Government Finance Officers Association for Excellence in Financial Reporting, receiving the Certificate of Achievement for the City's Comprehensive Annual Financial Report (CAFR) for the fiscal year ended December 31, 2007. This is the ninth consecutive year that the City of Presque Isle has received this award.

For the year ended December 31, 2008, the City General Fund expenditures were estimated at \$13.1 million. Adding the school and county budgets of \$5.55 million, total expenditures were expected to be \$18.5 million to be funded by: \$10.9 million in property taxes; \$7.2 million in city fees and services; and \$550 thousand from the unreserved undesignated General Fund Balance (Surplus). For the first time, the City increased the annual budget and transferred \$144 thousand from the Emergency Reserve to pay some of the costs of the historically high snowfall. The City also spent an additional \$27 thousand from Surplus for an unexpected capital expenditure (an electrical panel at the Forum). The net result of 2008 activities was a decrease to Surplus of \$365 thousand.

Sound financial planning calls for the City to keep a minimum 17% of total annual expenditures in the Unreserved Undesignated Fund Balance (Surplus) as insurance against unexpected shortfalls. As of December 31, 2008, the Undesignated Fund Balance stands at \$3,065,134 or 18.7% of total expenditures for the year.

Over the year, the City of Presque Isle's assets (net of depreciation) increased \$8.6 million. The largest amount of this increase, \$5.6 million, is improvements to the Airport runways funded by grants from the Federal Aviation Administration; \$1.5 million is construction on the secured landfill expansion, funded in part by an interim bank construction loan; \$315 thousand is land purchased for the new Community Center funded by a bank loan; and the balance is due to annexations of streets, primarily from the Maine Department of Transportation.

Borrowing increased a total of \$1.8 million over the year. Long-term debt increased \$929 thousand: \$55 thousand to finance energy-efficient lighting at the Forum; \$110 thousand to finance the purchase of a new wheel loader for the Public Works Department; \$310 thousand to finance the land for the new Community Center; and \$454 thousand to finance Indoor Pool renovations. Interim bank financing for the Landfill expansion increased \$899 thousand.

The Finance Department is made up of seven employees: Finance Director/City Treasurer, Priscilla (Pat) Web; Accounts Payable Clerk/Municipal Bookkeeper, Sharon DeMerchant; Tax Collector/Office Manager and Deputy City Clerk, Deborah Ouellette; City Clerk/Deputy Tax Collector, Nancy Nichols; three Deputy Tax Collectors/Deputy City Clerks: Sharon Barclay, Linda Brewer and Christina Kaiser. Fortunately for us, there were no employee turnovers during the year.

The Finance Director and the Accounts Payable Clerk are responsible for the accounting functions of the Department ranging from monitoring and recording cash receipts, investing funds until they are needed, disbursing funds, reporting to the City Councilors on a monthly basis the finances of the City, and preparing the year-end financial statements.

The other major part of the Finance Department is the Tax Collector/City Clerk Office. This Office is made up of the Tax Collector, the City Clerk and the three Deputy Clerks who provide a variety of services to citizens at the front desk. As Deputy Tax Collectors, they issue property tax bills; process tax club and regular tax payments; place liens; register motor vehicles for the Maine Bureau of Motor Vehicles; process recreational vehicle registrations for the Maine Department of Inland Fisheries and Wildlife; and issue hunting and fishing licenses.

As Deputy City Clerks, they process vital records including birth, marriage and death certificates; process absentee ballots; process various business license applications; and issue dog licenses. The City Clerk is also responsible for administering all elections for the City and recording the official minutes of all City Council meetings.

Respectfully submitted,
 Priscilla (Pat) Webb
 Director, Finance Department

Fire Department

43 North Street, Suite 1

Emergency Telephone: 911

All other calls: 769-0881

Web Site: www.pifd.org Email: pifire@maine.rr.com

Greetings from your Presque Isle Fire Department! Calls for assistance were up for 2008, with a total of 364 requests, 47 more than in 2007, and 34 more than 2006. Here is the breakdown:

| | |
|--|-----|
| Rescue and Emergency Medical Service Incidents | 102 |
| False Alarms and False Calls | 42 |
| Good Intent Calls | 48 |
| Fires | 56 |
| Service Calls | 77 |
| Hazardous Conditions (No Fire) | 30 |
| Special Incident Type | 6 |
| Overpressure Rupture, Explosion, Overheat | 3 |
| Total: | 364 |
| Life Safety Inspections | 360 |

The Department:

Your Fire Department is comprised of 15 full-time members, up to 33 paid-call members, and a chief.

The full-time staff maintains the trucks, does building and grounds maintenance, performs life safety inspections, car seat installations, home safety inspections and smoke detector installations, fire safety talks and presentations, as well as any other tasks required. The full-time staff answers most of the emergency requests for assistance (fires, alarms, etc.) and the paid-call members are called in to assist on large scale emergencies.

Most of the staff have been with the Department for many years, and bring those years of experience and training to the job.

If you are interested in fire fighting, there are several slots available on the paid-call department. If you think this might be for you, drop by the Resources office, on the third floor of City Hall at 12 Second Street and pick up an application.

Presque Isle Fire Department

Front (l to r): Scott Michaud, Tony Robichaud, Rich Wark, Adam Rider, Gerald Cousins, Chief Darrell White, Bob Jackson, and Vince Baldwin. Back (l to r): Dale Morrison, Kyle Bartley, Nathan Allen, B. J. Estey, Fred Parsons, Grant Spinney, Scott Cyr, and Brandon Greaves.

The Scotty House continues to be utilized for fire safety demonstrations and teaches youngsters useful, fire-safe habits.

The Public Safety Open House was held in October, with several informative displays, not only from our Department, but from other agencies in the area. This was well attended by the public, and I want to thank the full-time and call-member staff for coming in and making this event a success.

The Department was well represented at the Maine State Fire Convention in Boothbay Harbor in the fall of 2008. We received a trophy for 2nd place in the Best Marching Unit. I want to thank all the personnel who traveled down and represented the City of Presque Isle so well.

Grant Spinney (left) and Adam Rider (right) with youngsters wearing their Fire Prevention Week tee-shirts at Open House

Safety Reminders:

We cannot stress enough the importance of displaying your street or road number, in a manner that can easily be seen by responders to your request for assistance. If you need the Fire Department, Police Department, or ambulance service, we need to get there quickly for your emergency. We can find you faster if your home is properly marked.

If your home is **within 50 feet of the road**, the number needs to be displayed on the front of the structure in the vicinity of the front door, or entry. If the door doesn't face the road, the numbers should be placed towards the road. If your structure is **over 50 feet from the road**, the assigned number should be displayed on a post, fence, wall, mailbox, etc., near the road by the driveway entrance. The **numbers need to be a minimum of 4 inches high, of reflective material, and be of a contrasting color to its' background**. For more information on the Addressing Ordinance, go to the City of Presque Isle's website (www.presqueisle.govoffice2.com) or visit the Code Enforcement office at City Hall.

Remember, we require residents to obtain a permit to burn, for any and all outside burning. These permits can be obtained at the Fire Department for an annual fee of \$10.00. This permit fee is much cheaper than if you are found burning without a permit, as you may be subject to suppression and court costs.

I can't stress enough for citizens to make sure that your home has working smoke detectors, clean woodstoves and chimneys regularly, keep gasoline and other combustibles out of living areas, be careful with space heaters, and always be "Fire Safe". Fire safety is a 365-day, 24-hour job for all of us!

The Aroostook County Emergency Management Agency, through the State of Maine has established a Hazardous Materials/Weapons of Mass Destruction Decontamination Team. The team currently has twenty-two members.

The Haz-Mat Decontamination Trailer is equipped with a decontamination tent/shelter, technical meters, special protective clothing and various other equipment used to effectively perform decon at an incident.

Decontamination Strike Team — Aroostook County
Emergency Management Agency

Left to right: Brandon Greaves, Dale Morrison, Bob Adams, Robbie Gross, Vince Baldwin, Lee Thomas, Jerry Harris, Carl Allen, Jim Barber, Dave Perry, Tim McKinnon, and Peter Greenier.

In 2003, the Presque Isle Fire Department, under the direction of Firefighter Grant Spinney, set out to develop a Junior Firefighter Program. The goal was to train young adults between the ages of 16-18 in the basics of firefighting in hopes that after completion of

such a training program, they would continue on as members of the Call Department. The first year, five students enrolled. From 2004-2007, again five students took part in the program, but in 2008, the program was expanded to the County level. Education coordinator Grant Spinney made presentations to several area communities about the need for the next generation of firefighters who need to be developed now to take over in the future when current firefighters retire or move on. Area fire departments that sent students were our surrounding mutual aid towns.

Junior Firefighters

In 2008, the name of the program was changed to Aroostook County Fire Attack School. Twenty-two students from 6 communities enrolled in the program, and of that number, 19 students graduated from the program. The graduation was held at the fire station, with a crowd of around 200 individuals. I want to thank Grant and the many other department members who assisted him, for the fine job on this important project.

We want to thank many of the community businesses and organizations for their continued support throughout the year and for many years. And I would like to thank the City Council, City Manager, the Department's full-time staff and volunteer's, as well as the public for their support. If you have any fire-related questions or want a tour of the Fire Department, give us a call @ 769-0881 and we will do our best to accommodate you.

Respectfully submitted,
Darrell White
Fire Chief, Fire Department

The Forum

PO Box 784/84 Mechanic Street

Business Hours: 8:00 AM-5:00 PM Monday-Friday

Telephone: 764-0491 Fax: 764-2525

Email: theforum@mfx.net Web Site: www.presqueisleforum.com

The Forum Vision Statement:

“With the support of its patrons and staff, The Forum will continue to expand and improve the quantity and quality of its business and event programming to create a constantly increasing demand for use, space and services to the point of needing a larger facility.”

The Forum did very well during 2008 despite the downturn in the economy. While income for some individual events was slightly depressed, the number of events increased. In addition to ice activities, The Forum was home to 15 major functions and provided support and assistance to 15 additional events or facilities from Madawaska to Lincoln. Increased operating costs, most notably fuel, dropped the rate of return for each dollar spent from 70% to 67%.

Skating continued to show the decrease first experienced in 2007, and was down 4% for the year. Ice time rental was the only area that showed an increase, up 3%. Information from other arenas indicates that this trend is not localized and is tied to the economy. The ice season was 23 weeks including the 2 weeks of summer ice.

Our spring show season started in March with the 26th *Annual Musical on Ice* whose theme was *A Festival of Animals on Ice*. This was followed by *McCluskey's RV and Trailer Show*. Fort Fairfield's Chamber of Commerce *Agri-Business Trade Fair* came in next with a new look and a new name: *Business and Agri-Trade Show*. The Agri-Trade Show was followed by *The Forum's Spring Arts, Crafts and Collectibles Fair* and *MPG's Farm Days Trade Fair and Expo*, *The Forum's Spring Trash and Treasure Sale* and the *Kiwanis Home, Garden and Recreation Show*.

Professional wrestling made a long-awaited return with *Super Clash at The Forum* and was well received. Our spring schedule finished up with the *Anah Temple Shrine Circus* in May, three days of fun for kids of all ages.

A quick turnaround of the building brought us into our summer ice season, June 20 through July 3. In addition to public skating sessions, hockey clinics were held by *Presque Isle Youth Hockey* and *Northern Elite Hockey Camp* and figure skating lessons were available from the *Skating Club of Maine*.

As soon as the ice was out on July 3, we started to set up for the *Northern Maine Fair*, July 25 through August 2. As always, we had a very busy fair schedule starting with the *Classic Car Show* on Saturday and Sunday, the *Historical Pavilion* from Tuesday through Thursday, with *G Force Laser Tag* and *Teen Rock Night* closing out the week. August also included the *Balloon Fest*.

September was extremely busy with *Citadel's Women's Expo*, *The Forum's Fall Trash and Treasure Sale*, *The Forum/Kiwanis Fun Day* and Northern Maine Community College's *Fall and Winter Expo*. Wrestling returned in October as well as *The Forum's Fall Arts, Crafts and Collectibles Fair*.

The Fall Ice Season started October 19 and opened with youth hockey clinics and continued through year-end with tournaments, hockey games, figure skating, as well as public skating sessions and private rentals. Our regular ice users include: *Presque Isle Youth Hockey*, the *Skating Club of Maine*, the *Gentlemen's Hockey League*, *Presque Isle High School Varsity Hockey*, the *University of Maine at Presque Isle* and the *Northern Maine Community College*.

The Forum was extremely busy throughout the year with table, chair and curtain rentals. Capital improvements included swapping the lobby bathrooms around so the women's restroom is now the larger of the two, and installing a new state of the art alarm system to bring The Forum up to code. We also refurbished the two coal boilers so we could take advantage of a cheaper alternate energy source.

Our largest project of the year was having all the lighting in the facility replaced with new energy efficient fixtures. The old original T12, metal halide and incandescent lights were

replaced with T8 and T5 technology which has greatly reduced our power bills and should easily pay for itself within 5 years.

Sadly, due to a policy change within the City we were forced to let three longtime employees go; they will be greatly missed. I would like to thank the Forum Advisory Committee, especially outgoing member Dr. Maurice “Jack” Belden, the City Manager, City Council, and all the other City departments that provided support to The Forum. I would especially like to thank The Forum’s dedicated personnel for all they do for the facility.

Respectfully Submitted,
James Kaiser
Director, The Forum

Industrial Council

650 Airport Drive, Suite 10

Business Hours: 8:00 AM-5:00 PM Monday-Friday

Telephone: 764-2542 Fax: 764-2544 Email: larryc@pqiiic.com

The Presque Isle Industrial Council (PIIC) was established by the City Council in 1961 as a non-profit corporation governed by a board of seven directors. The directors include two representatives from the City Council, two representatives from the Presque Isle Area Chamber of Commerce, and three representatives

from the community-at-large. The Industrial Council is responsible for the management and development of the City-owned Skyway Industrial Park, Office Park, Fairview Acres, former Gouldville School, Cunningham land site, along with oversight of various reserve accounts. The PIIC staff consists of three full-time, and four seasonal employees.

In reviewing the activities for 2008, it was a very busy, challenging and productive year. The PIIC was involved in numerous projects on Skyway Industrial Park and throughout the City. The highlights included a new website, sale of City-owned properties, Tax Increment Financing Project, land acquisitions, Request for Proposals for the Cunningham site, new business, and completion of Capital Improvements.

In keeping up with the information age, a new website was created and overseen by Ruth Kern Doherty with contractual development services provided by Breezy Hill Designs. The site includes statistical information on numerous subjects and the community, available buildings, available land sites; and a virtual tour of Skyway Industrial Park. We have received numerous comments and compliments about the website which has become a very important marketing tool.

Visit the Presque Isle Industrial Council website at
www.pqiiic.com

In 2008, the sale was completed for the former Wetterau freezer, garage buildings and foundation on which a new 48,000 square foot building will be constructed in 2009. Also, a long-term lease for land area was negotiated and finalized as a part of the overall project. Another sale of City-owned property was the former Red Cross Building located off State Street. The PIIC advertised the property for sale; three proposals were received and ultimately sold to Fred and Lisa Dobbs. The building is to be renovated and used for offices or retail purposes. It is important to note in both sales, the properties have been returned to the tax base and will generate new tax revenues and activities.

The PIIC provided assistance to a developer for the construction of a 93-room Hampton Inn Hotel. The developer purchased the former State Armory property on North Main Street, razed the building and sub-divided the land into three parcels. The PIIC negotiated and prepared a "Tax Increment Financing District (TIF) and Program" for the project which was approved by the City Council. Construction of the Hotel began in 2008 and will be completed by mid-2009. This project will provide new job opportunities along with broadening the City's tax base.

The PIIC, at the request of the City Council, negotiated and purchased property on which to locate a "future" Community Center Building that will replace the existing recreation building on Main Street. The project included the purchase of three privately-owned properties located south of the District Court building on Riverside Drive/Chapman Street. As a part of the project, Phase I and II environmental studies were completed and overseen by the Department of Environmental Protection (DEP). The DEP was most helpful in providing assistance, encouragement and funding for the studies. Work will continue at the site in 2009 to include the razing of the former Beaulieu's Hardware building and removal of an underground storage tank. We believe this will be an excellent site for a new Community Center based on its size, close proximity to the downtown business district and adjacent to the City's Riverside Park facilities.

A "Request for Proposal" (RFP) was prepared and advertised for the redevelopment of the Cunningham site for housing. The RFP generated some interest; however, no proposals were received. We continue to believe the site is an excellent location for housing and will be of interest to developers in the future.

A new business, Overhead Door of Aroostook, located on Skyway Industrial Park in May 2008. A portion of Building 306, located on Central Drive, was renovated providing the company with offices, storage and a garage area. This company is a welcome addition to the community. Logistics Management Systems (LMS), who was leasing a portion of the former International Paper Building, vacated the premises in December. LMS located on the park in April 1999, and throughout the years, provided bonded warehouse services along with operating the Intermodal Yard. Also, Northern Maine Bottling Company ceased operations in May and vacated the premises they had been leasing since 2005.

The Intermodal Yard experienced its second year of inactivity. Numerous contacts and efforts were once again made to attract customers without any success. Accordingly, the lease agreement with the Maine Department of Transportation for the Mi-Jack loader will be terminated and the machine repositioned to another site in Maine. The PIIC will be considering other potential uses for the Yard and Office/Garage building.

Capital Improvement projects were completed on three buildings that included the replacement of windows and roof on the Fiber Materials building; replacement of the roof on the east side wing of the TaterMeal building; and the replacement of the heating system at the Overhead Door building. Also, a 20,000 square foot building scheduled for demolition was torn down. A contract was negotiated with five Amish families for the removal of the building. The Amish salvaged a substantial quantity of wood building materials which were reused in the construction of their barns and houses. This was a most interesting and rewarding project that saved the PIIC hundreds of dollars in demolition costs, a minimum amount of waste hauled to the landfill and the recycling of valuable building materials.

The Presque Isle Industrial Council's operating expenses for the year were \$322,761 and debt service was \$85,242. Revenues collected on behalf of the City were \$499,598, which provided a net return of \$91,586 to the City.

The officers and directors for 2008 were: Frank Bemis, President; Calvin Hall, Vice President; Scott Norton, Secretary/Treasurer; Rick Duncan; Robert Graves, Mel Hovey; Hal Stewart; and ex-officio member City Manager, Thomas Stevens.

Respectfully submitted,
Larry E. Clark
Executive Director, Presque Isle Industrial Council

Mark and Emily Turner Memorial Library

Email: sonjaplummer@presqueisle.lib.me.us

The Mark and Emily Turner Memorial Library Vision and Mission Statement

“The Mark and Emily Turner Memorial Library will be a model of public access to information and a place in our community that provides a comfortable, welcoming atmosphere for all citizens to pursue their educational, recreational and cultural interests.”

“The mission of the Mark and Emily Turner Memorial Library is to provide quality materials and services in a comfortable, open environment. We strive to enhance lifelong learning and personal growth while fostering a community connection.”

Successes of the library over the past year such as the Excellence Award, measurable growth, continued support from local government, and grants are directly correlated with excellence in local leadership. Our Library Board of Trustees, volunteers, our staff, collaboration between all City departments, and the financial investment the City

makes each year in library and information services are crucial ingredients for excellence. Library staff is encouraged to create, innovate, lead, and take risks. As a result, the Library supports the Mission and Vision and 101 year old tradition of improving lives, assisting in informing our citizens, and enhancing quality of life and literacy, and reading material for recreation and intellectual stimulation.

The year 2008 for library and information services in our community focused on three major themes: 1) Respect for tradition while leading calculated innovative risks 2) Meeting users, patrons, or members where they are, not where our traditions presuppose and 3) Evaluating our responsibility in economic and community development and investing in the broader effort of sustainability.

Briefly, what number one means is that we maintain services and library practices not only traditional, but still desired by community members while experimenting with online services and tools. For instance, promoted and developed in-library book discussion groups and book signings, while offering similar book discussion groups and author talks online.

The second focus entails a broad view of our world and our users. We evaluated where our users spent time and created services or adjusted traditional objectives to bring the library to them. Examples include outreach in the schools, area daycares, to NMCC, and UMPI, as well as other area nonprofits. Creating parade floats, booths for job fairs and joint efforts between libraries and librarians in the area are other examples. Also, offering reference help online, advocating for library services in online social networking venues, and creating virtual libraries.

Corduroy and Children's Librarian Sue McPherson at Northern Maine Community College

For the third theme, we recognize traditional library services that enhance economic and community development and increased our participation. Libraries often are the first point of contact for professionals seeking a new place to live, and job and grant seekers for new businesses, nonprofits, and new services are frequently using library services. To participate more fully, we included staff in decision-making, planning and problem-solving activities in city, state, national, and global workshops, discussion, conferences, and classes. Our participation raised awareness of benefits to living in a rural area such as Presque Isle, uncovered solutions found in other parts of the world that also apply to local problems, and we increased our networking, collaborative, and resource sharing ability exponentially.

Curious George and 2008 Miss Presque Isle Germaine Scott at the 2008 Memorial Day Parade

While we have many statistics, both evidence-based and anecdotal, to share that quantify growth and usage and our value within the community, equally expressive are people that visit the library, log in to use our online resources, or participate in programs or services as part of their lives. The Library, standing for over 100 years now, continues to offer traditional, relevant, community sustainability, innovative leadership and services to Presque Isle.

Statistics:

Total Circulation for 2008 was approximately 130,498. This figure represents every service in-house and within the community that we offer. In 2007 total circulation count was 122,792. This represents an increase in the count of 17,706 or 6.3%. Other 2008 statistics include:

- Number of patrons with library cards at year-end, 4,777
- Number of patrons with membership to our online social networking sites, in excess of 5,000 persons
- Materials checked out, 62,608
- Items in the collection, 63,560
- Reference questions answered, nearly 9,000
- Number of Interlibrary Loans, 291
- Number of times public access computers were used, 35,536

About the Building

Building Designed by: Astle and
page of Houlton, Maine

Romanesque Revival Style

A Brief History of the Library Building

1906: Andrew Carnegie gave \$10,000 to the town of Presque Isle to build the library. (During his adult life, Carnegie amassed a huge fortune, and devoted the rest of his life to giving nearly all of his money away. One of his lifelong interests was the establishment of free public libraries all over the country, as a way of making education available to everyone.)

1907-1908: The Presque Isle Free Library was built and opened on July 1, 1908.

1966-1967: An addition was integrated into part of the original building. It was dedicated on April 30, 1967. At that time, the facility was renamed the Mark and Emily Turner Memorial Library. Mark Turner (1893-1972) and Emily Turner (1896-1987) were generous contributors to a variety of local charities in the Presque Isle area. They donated \$60,000 to help finance the 1960's addition to the library.

Knute Rockne once stated to his football protégés at Notre Dame University that *“When the going gets tough, the tough get going!”* 2008 was certainly a good time for Presque Isle residents to fall in step with that motto, as the national, state and local economies began a downhill slide. Given the tightening economic environment, the Planning and Development Department has continued to focus upon trying to creatively and prudently address local planning and development needs. The following are descriptions of activities which we have chosen to mention to the citizens and taxpayers of Presque Isle in this 2008 Annual Report. In all of the projects and initiatives of the Planning and Development Department, we seek and welcome the input from interested residents of our community and others who work and play in the City, and patronize our businesses. Please feel free to contact us at 764-2503 during normal business hours, if you have suggestions or comments.

Community Comprehensive Planning Efforts

The newly updated Comprehensive Plan was then formally adopted by the City Council in mid-December, 2007, after an exhaustive procedure, including a number of public workshops and public hearings. In April, 2008, the Maine State Planning Office (SPO) reviewed and “certified” the city growth management plan as meeting State requirements. This document will be used to help guide future growth and development within our community, as well as to aid in important resource conservation and protection efforts. “Certification” by the SPO means that the City of Presque Isle will receive added “bonus points” when seeking State and Federal funding assistance for projects needed throughout the city like roads, recreation, downtown revitalization, etc.

2008 was the year that all of the City departments focused upon their respective sections of the Comprehensive Plan with an eye on “implementation.” That important guiding document will not be gathering dust or sitting on a shelf, but is used daily in the City’s community planning and economic development efforts.

Presque Isle Downtown Revitalization Planning and Revitalization Efforts

In late 2007, the Presque Isle Downtown Revitalization Committee requested, and was awarded, local funding to undertake and complete a comprehensive downtown revitalization study, following the Maine Main Street Program. In the spring of 2008, the City received a report from its chosen private engineering and architectural consulting firm, which issued their final report to the City Council and Presque Isle Downtown Revitalization Committee in May, 2008.

The May 2008 *Downtown Master Plan* contains important design goals, strategies and proposed developments and investments focused upon the downtown business district over the next five (5) years including the following: 1) Focus on making Main Street a more pedestrian-friendly area with traffic calming and crosswalk improvements, 2) installing gateway and way-finding signage to help guide customers and visitors within our downtown, 3) use “form based” codes to regulate and guide/develop/rehabilitate and open more appropriate commercial and residential uses in the City downtown core area, 4) remove barriers to downtown redevelopment efforts while reinforcing guidelines to preserve the historic character, 5) develop and implement a parking management plan to better reflect physical conditions and needs of a traditional downtown, and finally, 6) development of a building facade improvement program.

Looking north — view of the west side of Main Street — center of downtown

This master plan has already been utilized on three occasions to seek much needed funding for implementation from State and Federal sources. The City has a downtown plan and will continue to follow that guiding document in all proposed associated developments within that area of the City.

On-Going Easterly By-Pass and Transportation Corridor Management Studies

Our Department continued to invest a significant amount of staff time in a very important task in 2008, which was the detailed review and analysis of the various by-pass alignment options developed by the Maine Department of Transportation (MDOT). Throughout 2008, the City's Planning and Development Department participated in a number of meetings with potentially impacted landowners with an eye toward reducing potential negative impacts on agriculture, natural resources and city service. In 2008, city staff continued to work toward refining more acceptable, potential by-pass alignments and to “modify” those alignments, in an effort to develop the best possible path for a roadway around our central business district and future growth areas within our community.

In late 2008, we offered testimony to the United States Army Corps of Engineers regarding the City's comprehensive planning efforts, concerns about potential impacts upon the City's public water supply and associated community growth and development efforts.

The Cities of Caribou and Presque Isle, as well as Northern Maine Development Commission, in consort with the Maine Department of Transportation, are

undertaking a corridor management planning activity on the existing U. S. Route 1 alignment between the two cities. This project has adopted the same study area definition as used in the Aroostook County Transportation Study. In the south that area begins in the proximity of the Routes 1/163 intersection in Presque Isle and ends to the north in Caribou in the proximity of the Routes 1/89 intersection. The eighteen month planning effort will result in recommendations, which, if implemented, will yield over time, at a minimum, a two-lane limited access highway comparable to Route 1 just north of the Caribou Motor Inn. The transportation management plan will recommend steps to acquire sufficient right-of-way to protect the option of ultimately transitioning in a four-lane, divided highway comparable to an urban Interstate design standard. Based on local discussions, it is anticipated that right-of-way will be secured over time, only on a willing buyer/willing seller basis. A prime objective of this corridor management project will be to develop the funding mechanism to achieve this goal.

The project benefits from the work accomplished in the Aroostook County Transportation Study and presented in draft, August 2005, as the *Route 1 Corridor Management Plan — Presque Isle to Caribou*. That report contains valuable information on existing conditions covering physical features of the road, traffic characteristics, adjacent land use considerations and environmental conditions. At the writing of this section of the City's 2008 Annual Report, it is anticipated that the Corridor Management Plan will be concluded in the fall of 2009.

Source Water Protection Area Ordinance

In 2008, our Planning and Development Department developed a new “Source Water Protection Area” Ordinance which has benefited, and was modified, in response to public input received at a second of two public workshops held in July and October, 2008. During the first part of November, 2008, the “revised” Ordinance was then submitted to the Maine Department of Agriculture as required by statute. The Department of Agriculture has ninety (90) days to conduct their review and respond with the acceptance/endorsement or suggestions for further modifications. Based upon required adoption timelines, we would expect City Council formal adoption of the Source Water Protection Ordinance/Overlay Zone to occur in late March or early April, 2009.

New Staff Members Added to the Planning and Development Department

In 2008, the City Council authorized the hiring of two additional staff members to the Planning and Development Department. The Department hired Tony Michaud, as the second Assistant Assessor to focus primarily upon personal property assessing. Tony was hired in December, 2008, and James Francomano, our new City Planner, began his employment with the City in February, 2008. Both are welcome additions to our very busy Department and have already shown their worth in helping us pursue growth opportunities for our community.

Concluding Remarks

2008 marked the beginning of a period of new opportunity for our community, as there have been many important planning and economic development initiatives started, most of which will affect the long term well being of our City and its residents. There are many activities and discussions on-going about how our community desires to grow, what the community image is which we want to present to prospective developers/investors and visitors and how we want to protect vital natural resources within our boundaries. The Planning and Development Department staff intends to remain engaged in those critical decision-making processes and we will seek your advice and counsel as well.

Respectfully submitted,
Kenneth C. Arndt
Director, Planning and Development

Editor's Note:

A cooperative project involving the City of Presque Isle, the Presque Isle Historical Society, and Presque Isle Historian Dr. Richard Graves, was completed in 2008. The project highlighted the City's historical locations.

With cooperation from current owners, twenty-eight (28) locations have been sited and marked with plaques noting the historical importance of the location, as well as depicting early photos of the site.

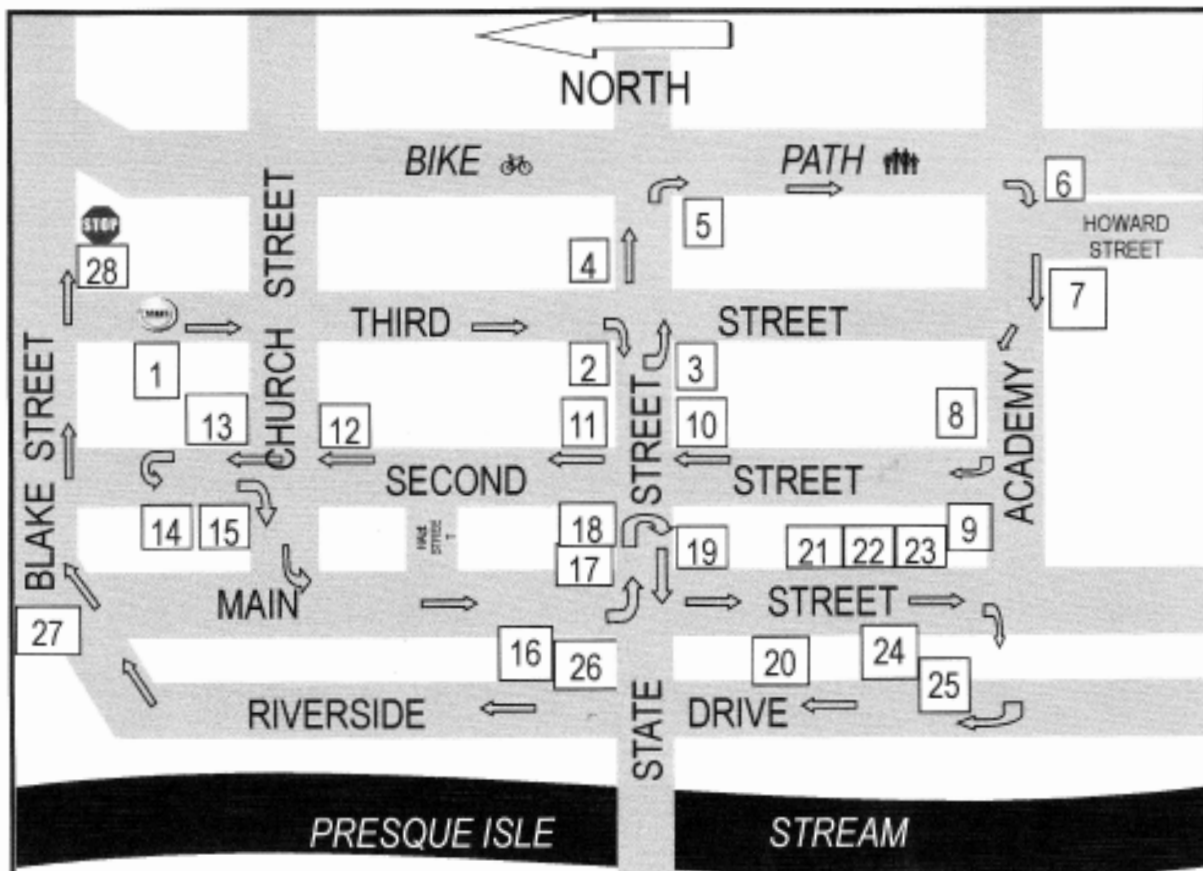

More sites will be added as funds are available.

Self-Guided Walking Tour Maps are available at City Hall and various locations around town. For a great experience, a costumed, guided walking tour may be arranged by appointment by calling (207)762-1151 (please give a 36-hour notice for the costumed tour).

Historical Significance Key of the map on the following page:

1. Vera Estey House, 16 Third Street, c. 1875
2. Allen House c. 1890 +-

Office of Code Enforcement

The Office of Code Enforcement, within the Planning and Development Department, provides a service to assure that the minimum levels of public safety, health and welfare are maintained insofar as they are affected by land use and development and by building construction and maintenance. To this end, this Office is charged with the overall administration of the City's Land Use and Development Code, the entire City- adopted building and construction codes, the State-adopted planning, use and building statutes which specifically pertain to the Code Enforcement Officer, and the administration of the Federal Americans with Disabilities Act (ADA).

Cost of Permits

Minimum **building** permit fee is \$25.00. **Residential** project amounts are based on \$4.00/ per thousand of the construction cost, excluding any plumbing or electrical work. **Commercial** project amounts are based on \$6.00/per thousand of the construction cost excluding the plumbing or electrical work. **Sign** permit fee is \$1.00 per square foot of signage. **Certificate of Occupancy** fee is \$10.00. **Demolition** fee is \$20.00 for residential and \$50.00 commercial. Minimum **electrical** permit fee is \$35.00. **Temporary electrical** hook-up fee is \$20.00. Minimum **internal plumbing** permit fee is \$24.00, then \$6.00 per fixture. Minimum **septic** permit fee is \$100.00. **Zoning Board of Appeals** fee is \$55.00.

In 2008, the Code Enforcement Office issued 183 construction and renovation building permits totaling \$15,929,854. This is an increase of \$9,294,499 from the previous year's total.

Tax Assessors Office — Tax Relief Information

Homestead Exemption

A property tax exemption is available for permanent residents of this State who have owned a homestead in the State for the 12 consecutive months prior to the April 1st assessment date. Owners of mobile homes also qualify for this property tax exemption. For 2008, the exemption amount in Presque Isle was up to \$13,000 of just valuation. The 2008 certified ratio for Presque Isle was 95% of just valuation. **If any residential homeowner is not receiving the homestead exemption**, please contact the City Assessor at 764-2514 for an application form or go online @ www.state.me.us/revenue. Application forms are required to be filed with the Assessor prior to April 1st.

Exemption for Veterans and Widows or Widowers of Veterans

A property tax exemption is available for veterans, and widows or widowers of veterans, who served during a federally recognized war period and who have attained the age of sixty-two (62), as of April 1st, or who are receiving a pension or compensation as a veteran from the U. S. Government for total disability, either service or non-service connected. The exemption is available only in the place where the veteran is a legal resident. For 2008, the exemption amount in Presque Isle was up to \$6,000 of just valuation. (\$7,000 for veterans who served during any federally recognized war period prior to World War II). The 2008 certified ratio for Presque Isle was 95% of just valuation. **If any qualified veteran is not receiving the veteran's exemption**, please contact the City Assessor at 764-2514 for an application form or go online @ www.state.me.us/revenue. Application forms are required to be filed with the Assessor prior to April 1st.

Exemption for the Legally Blind

A property tax exemption is available for those individuals who are declared legally blind. The applicant must file certification from the individual's doctor with the Assessor prior to April 1st. For 2008, the exemption amount in Presque Isle was up to \$4,000 of just valuation. The 2008 certified ratio for Presque Isle was 95% of just valuation.

Maine Residents Property Tax and Rent Refund Program

Maine Revenue Services, Property Tax Division, continues to administer the Maine Residents Property Tax and Rent Refund Program. This program has income guidelines that must be met. **Application forms for this program must be filed with the State annually.** The application forms are available at City Hall, usually in August.

Business Equipment Tax Reimbursement Program

Unless there are legislative changes, business owners may be eligible under the Business Equipment Tax Reimbursement Program for reimbursement from the State for the local property tax paid on qualifying business personal property first placed in service in the State after April 1st, 1995. Application forms are anticipated to be available at City Hall in August, for the 2008 tax year reimbursement. **The applications must be filed with the State by December 31, 2009.** New for 2008, for non-retail business, BETE replaces BETR. For more information, call us at 764-2514 or contact Maine Revenue Services.

Police Department

43 North Street, Suite #2

Fax: 764-6139 Email: pipd@pipd.us

Animal Control Officer: 764-4476

The Presque Isle Police Department (PIPD) responded to 6,184 complaints in 2008, this is a slight increase compared to the 6,176 complaints in 2007. Officers also investigated 327 motor vehicle collisions. Of those collisions, there was 1 fatality, 67 with personal injury and 259 with property damage only, which was 28 less collisions than the 355 in 2007. Personal injury accidents were down substantially in 2008, with 22 less than 2007.

Early in 2008, both Officer Brad Fitzgerald and Officer Dana Cote left the Department. Matthew Cummings and Peter Johnson were offered conditional employment to replace Fitzgerald and Cote. Officer Peter Johnson stayed on with the Department and in December of 2008, graduated from the Maine Criminal Justice Academy.

Presque Isle Police Department takes pride in the fact that our personnel are well trained and that they not only attend mandatory and extra training, but also instruct both at the local and State level. During 2008, the PIPD provided mandatory training and re-certifications within our own department, as well as to other surrounding local departments. Many of the Department's staff are also certified instructors and provided training at the Maine Criminal Justice Academy as well.

Department Meeting and Training Session

Police Department Personnel (left to right): Brian McQuarrie, Chief Naldo Gagnon, Ross McQuade, Jeff Mechalko, Wayne Selfridge, Roger Ellis, Robert Thibeault, Margaret Wallace, Lynn Hartley, Michaela Cote, Mark Barnes, Kevin Schumacher, Kevin Reed, Shawn Newell, Laurie Kelly, and Peter Johnson.

Also throughout 2008, the Department participated in area events: Bicycle Safety Rallies, Special Olympics, Safety Building Open House, various and many speaking engagements, booth attendance at local job fairs, as well as Northern Maine Fair and Forum events.

I am very happy to report that the Presque Isle Police Department suffered no personnel loss due to job injury or loss of life in our commitment to this profession and our community. I would like to offer a personal “thank you” and “job well-done” to all Presque Isle Police Department personnel for their continued efforts and professionalism.

GRANTS

Sergeant Joey Seeley prepared and submitted several grants and proposals throughout the year on behalf of the Department. The following is a description of programs the Department was able to be involved in because of those grants:

- **Maine Bureau of Highway Safety — Speed Enforcement.**

Amount awarded: \$5,000. The Department received funding to conduct speed details throughout the City from April 1st through September 30th. During this time officers worked seventeen roving patrol speed details totaling 66 hours resulting in 206 initiated motor vehicle stops. Officers wrote 80 traffic-related summonses, 54 of which were for speeding. Officers issued an additional 127 warnings for a variety of traffic related offenses. In addition, eighteen

officers participated in four stationary speed details totaling 70.5 hours. During this time, officers initiated 255 motor vehicle stops that resulted in 16 traffic-related citations being issued, 87 of which were for speeding violations. Officers issued an additional 146 warnings for a variety of traffic-related offenses.

- **Operating Under the Influence (OUI) Enforcement.** Amount awarded: \$6,000. Funding was received to conduct OUI details throughout the City from March 7th through September 30th. Assigned officers worked thirty-three details totaling 146.5 hours. During these roving patrol details, officers stopped 261 motor vehicles which resulted in 11 individuals being arrested for OUI and an additional minor charged

Presque Isle Police Department Officers working speed detail on Main Street. (Left to right): Officers Christopher Hayes, Matthew Cummings, Sergeant Eric Erickson, Sergeant Joey Seeley (operating LIDAR), and Officer Larry Fickett.

(Photo courtesy: Sergeant Mark Barnes)

through the Secretary of State's Office for a zero-tolerance violation. Officers issued 25 traffic-related summonses and 243 defects and warnings during this time. Officers also made 2 additional non-traffic-related arrests and issued 4 drug-related summonses. Six police officers worked one roadblock detail totaling 22 hours during this grant period. The roadblock was held in cooperation with the Caribou Police Department, Maine State Police, Aroostook County Sheriff's Office, and the U. S. Border Patrol. Officers checked a total of 201 motor vehicles and issued a number of warnings and defects notices. There were no arrests made during this roadblock, but 3 operators were requested to take a breath test as a result of the roadblock.

- **Seatbelt Enforcement.** Amount awarded: \$2,000. Officers worked thirteen roving patrol seatbelt details totaling 53 hours during the 2-week enforcement period from May 19th through June 1st. Officers stopped a total of 133 motor vehicles and wrote 87 traffic-related summonses, 67 for seatbelt violations. In addition, officers issued 51 traffic-related warnings, arrested an individual for OUI and arrested another individual on a criminal violation.
- **Law Enforcement Challenge.** This is the second year the Department has participated in this event; each law enforcement agency across the State has the opportunity to showcase their department's success in the area of traffic enforcement, in particular, their enforcement efforts in the areas of seatbelt, OUI and speed detection. The Department placed 3rd during this competition and won a radar unit valued at \$2,000. (The Department placed 1st in the competition in 2007.)
- **Holiday Enforcement Program (OUI and Seatbelt).** Amount awarded: \$5,342. The 2008 Holiday Enforcement Program was sponsored by the Maine Bureau of Highway Safety to target OUI offenders, as well as individuals not wearing seatbelts. During the seatbelt portion of the assigned details, officers were able to work eighteen roving patrol details totaling 67.25 hours. Officers conducted 208 motor vehicle stops that resulted in 127 individuals being summonsed for seatbelt violations. In addition, 38 individuals were cited for other traffic-related violations and issued 68 motor vehicle warnings. During the OUI portion of the program, officers were able to work 18 roving patrol details totaling 80 hours. Officers conducted 118 motor vehicle stops, which resulted in 11 individuals being charged with OUI offenses. An additional 33 traffic-related summonses and 95 motor vehicle warnings were also issued.
- **Presque Isle Rotary.** Amount awarded: \$2,000. The Department was awarded monies from the Presque Isle Rotary to go towards the purchase of a utility trailer. The trailer will be utilized to haul the all-terrain vehicle and snowmobile to reported emergencies. The purchase of the trailer will allow a much safer and quicker response for emergency responders.
- **Underage Drinking Initiative.** Amount awarded: \$1,800. The Caribou Police Department received an Underage Drinking Enforcement Grant from the State of Maine

Officer Roger Ellis making an arrest.

which included the Presque Isle Police Department. The Department had available \$1,800 to be utilized in the area of reducing under-age drinking; we were able to purchase two digital cameras from the monies received in 2008, with the grant continuing into 2009.

- **Military Surplus.** We applied for, and received, four M-16 Rifles through a military surplus program. The brand-new rifles were issued to patrol officers after they were properly trained and qualified. This is a considerable savings to the City since the only costs associated with the purchase was the shipping cost. If the Department were to purchase these rifles, it would have cost over \$2,800.
- **All Terrain Vehicle (ATV) Enforcement.** The Caribou Police Department received funds from the State of Maine to include the Presque Isle Police Department, with funds designated to cover costs to patrol ATV trails in an effort to enforce ATV-related laws. Sergeant Joey Seeley worked a total of 15 hours patrolling the trails in Presque Isle during the weekend that the Star City ATV Club held their Annual Poker Run; there were 250 participants at this event. Costs associated with working this detail was covered through the grant. There were no major problems encountered during the weekend and only two complaints had to be dealt with.

TRAINING

Much of the Department's mandatory training is set forth by the Board of Trustees at the Maine Criminal Justice Academy and the State of Maine. While some of the mandatory training is taught at other law enforcement agencies, several of the City's Police Department personnel are certified instructors and are qualified to conduct in-house training. In 2008 in-house training included:

- Certified instructors Sergeant Seeley and Officer Brian McQuarrie qualified the entire department with their sidearms and shotguns, as well as the officers who are assigned police rifles.
- Sergeant Seeley instructed the course titled "Identifying the Predominant Aggressors in Domestic Violence Cases." This mandatory training session is required by the Board of Trustees at the Maine Criminal Justice Academy.
- Detective Scull instructed the Intoxilyzer Re-Certification Course, which is required every two years. Officers must prove proficiency in using the instrument. Officers from surrounding law enforcement agencies also attended the training. Currently, Detective Scull and Officer Roger Ellis are two of only four police officers in Aroostook County who are certified instructors.
- The Presque Isle Police Department offered the Law Enforcement Pre-Service (LEPS) Course. Various officers from several agencies taught many subjects, but officers of the Department taught the majority of the classes. Eleven students interested in pursuing a career in law enforcement graduated from the class and are now certified as reserve police officers in the State of Maine. The LEPS course offered in Presque Isle is administered and monitored by the Maine Criminal Justice Academy.
- Detective Scull, in conjunction with a Lieutenant from the City of Brewer Police Department, presented information about Maine's heroin problem. This training was for both police and medical personnel. Heroin appears to be the same geographic

and demographic timeline as other drugs, i.e., cocaine, methamphetamine and prescription drug abuse. Just two years ago, drug (heroin) overdose deaths began outnumbering fatal vehicle accidents. This training is part of a preemptive attempt to be informed and prepared, allowing medical and police staff to get the same instruction.

- Sergeant Barnes organized two sessions of the Citizen Police Academy (CPA), one in spring and another in the fall. Those who attended the CPA offered some very positive comments on their course evaluations. They were impressed with the professionalism of the officers and the knowledge of the subject matter they taught. However, due to lower enrollment in the spring as well as other commitments during that time, the CPA will only be an annual fall event.
- All officers also received City-mandated training in Hazardous Materials, Fire Extinguishers and Blood Borne Pathogens.

Officers participated in training and certification from various outside agencies:

- By partnering with the State of Maine and the Maine Criminal Justice Academy, other mandatory training was conducted and included: Firearms, New Law/New Case Law, Identifying the Domestic Abuse Aggressor, Crime Scene Investigation and Evidence Collection, and Dealing with Developmental Disabilities, including Autism.
- Every officer has completed Federal Emergency Management Agency (FEMA) Law Enforcement requirements. The Incident Command Structure courses came about after September 11, 2001 and are now required training by several agencies, including municipalities, if they request any federal funding.
- Certification was done of Officers who work at the Department's dispatch center using the Maine Telecommunications and Routing Operations (METRO) and National Crime Information Center (NCIC) systems.
- Detective Scull attended Computer Crimes Task Force Training. The Aroostook task force will be situated at the Houlton, Maine State Police barracks. Computer equipment and funding will be from the State through a grant process. No municipal funding will be required. This as-needed task force will preview computer crime analysis and if required, send it on to the State lab for more intricate examination.
- Chief Naldo Gagnon, Sergeant Seeley and Officer Shawn Newell attended training at the Public Safety Building hosted by the Liquor Licensing Bureau in Augusta.
- Sergeant Laurie Kelly and Officer Lynn Hartley attended a week-long training session dealing with variant behavior which was held in Caribou. The "Crisis Intervention Training" was designed to give officers better skills to deal with a variety of mental health issues.
- Detective Sergeant Selfridge attended a week-long leadership and management school at the Maine Criminal Justice Academy put on by a nationally recognized consultant firm and focused on police management practices. This was the first time this course of instruction was given, replacing an outdated course of instruction. Each new supervisor attends this course.

- K-9 Officer Robert Thibeault attended monthly training sessions around the State of Maine with his K-9, Dozer. Monthly training is administered by the Maine State Police K-9 Unit and allows all of the K-9 Officers and their dogs to maintain their Maine Criminal Justice Academy certification. Academy standards mandate that the training sessions be 8 hours per month.

Above: K-9 Officer Rob Thibeault and Dozer at the Airport

Specialty Units

The Department has a **Bloodhound Search Team**. The team is capable of tracking missing and lost persons as well as tracking criminals by following human scent. As well as the Bloodhound, the Department also has a **Narcotics Detection K9 Team**, capable of detecting the odor of narcotics in vehicles, buildings, packages, planes, buses and just about anywhere else.

The Presque Isle Police Department also has a **Crime Scene Investigations Unit** that responds to any incident where fingerprints, footprints, DNA evidence, and many other types of evidence can be recovered to aid in solving crimes. The department has a state of the art facility for processing certain types of evidence and works closely with the Maine State Police Crime Lab to process evidence. We have a **bicycle patrol unit** that traverses the city's bike path, parks, streets, and more. The Presque Isle Police Department also patrols the many miles of **ATV** trails within our jurisdiction and enforces state rules and regulations as well as city ordinances associated with operating an All Terrain Vehicle.

Above: K-9 Hunter

Crime and Trends

This was a good year for solving crime with the use of forensics, with several of the Department's officers having been "Crime Scene Investigative" trained.

Three cases stood out in 2008: The first case was a 'cold case' reopened from a 2005 burglary in which the case was solved by blood DNA; in a second instance which was a rape, a search warrant and DNA samples matched the rapist; and the third case, which was also a rape, was solved by the Department's Criminal Investigation Division (CID) — again with the use of DNA forensics. If not for the forensics, all three of these cases may have otherwise gone unresolved.

K-9 Officer Rob Thibeault and Dozer checking out a parking lot

Each year, there seems to be a new trend in crime. 2008 was the year for Elderly Exploitation. The Department's CID detectives investigated several of these cases, which included financial exploitation, as well as sexual exploitation. Financial exploitation can include misuse of an elderly persons Power of Attorney representative.

CID detectives also dealt with a suspect who was responsible for several home invasions in and around Presque Isle, which involved masks and guns. Following an interview of the suspect by CID detectives, the Department was able to clear eight home invasion cases. The man received eleven years, all but four suspended.

The Drug Return Program is doing very well. Anyone with expired, unused or excess prescription drugs can bring them to the Police Department on North Street for proper disposal. In 2008, the Department was disposing of these drugs at a rate of filling one 35-gallon barrel every two weeks. The CID is actually getting swamped with this public service that gets drugs out of homes, which could be found by children and accidentally swallowed or be kept out the illicit street market for prescription pills. The program also keeps prescription drugs out of the water/sewer system and the landfill.

The City's main drug problem for the third consecutive year, is the abuse of prescription opiates and methamphetamines. The identity and arrest of drug dealers in Presque Isle, or those serving the Presque Isle drug trade outside our boundaries, have substantially increased in 2008. Because of the addiction and overdose dangers associated with these drugs, they are the focus of almost all attention in the fight against narcotics.

Vision Statement

To be the leader in public works services and innovative programs in Aroostook County and Northern Maine, and to continue to set the standard for service to our citizens and those who visit our community.

2008 was a tough year. Not only did we receive records amounts of snow, we also saw unprecedented increases in the cost of fuels.

The record snowfall, combined with record diesel prices, quickly depleted the Department's fuel, overtime and salt budget lines. The City Council authorized the transfer of funds from the City's Emergency Reserves Account to ensure that there would be no disruption in snow removal services.

Once the record-setting winter was over, we began spring clean up, concentrating in the downtown area first, then branching out from there. We have to clean up the center of town first in order to maintain compliance with clean air standards. There is a monitor in the center of

Photos: City snowblower — doing a great job; and then, stuck.

the City that measures the amount of particulate matter in the air. This monitor is watched closely by us here at the Department, but it is also watched by the Maine Department of Environmental Protection to ensure that we do not violate clean air standards.

Cleaning, washing and sweeping the streets and sidewalks downtown first makes the area look nice and makes it an inviting place to visit and shop.

The high cost of oil also severely impacted our street and road maintenance projects. The cost of asphalt nearly tripled over the course of the summer. That meant that we had to reduce the scope of some projects and delay others.

The high price of asphalt forced us to look at ways to stretch the Department's dollars. One of the things we tried was chipsealing a couple of streets in town. Typically, chipsealing was done only on country roads where traffic was less concentrated. We chipsealed Harvest Lane, a low-volume dead end street and a section of Hardy Street. These streets are holding well and we plan to do a few more in 2009.

Chipsealing is accomplished by spraying a thin layer of asphalt over an existing surface and covering it with small crushed rocks, usually 3/8 to 1/2 inch in size. These rocks or "chips" are embedded in the liquid asphalt and provide a wearing surface for the roadway. The liquid asphalt seals cracks in the roadway and bonds the chips to the existing surface, prolonging the life of the roadway. Chipsealing costs less than half the cost of hot top. It will allow us to preserve more miles of pavement than hot top overlays do, but there will always be areas where paving will still be necessary due to traffic volumes or the type of vehicles using the roadway.

The other roads that were chipsealed were Chandler Road, McPherson Road, Niles Road, and Spragueville Road.

The Skyway/Edgemont Drive Sidewalk Project was completed this summer. The project began in 2004 when we applied for a Transportation Enhancement Grant from the Maine Department of Transportation (MDOT). It took four years to get approved and secure funding, with four different entities providing funds. The Federal Government provided \$144,000

Beginning Skyway/Edgemont Drive Sidewalk Project

through the MDOT, the Aroostook Band of Micmacs put in \$30,000, Maine School Administrative District #1 contributed \$12,000 to pay for lighting, and the City of Presque Isle added \$16,000.

The new sidewalk and bike path is 3,500 feet long and 8 feet wide. It is well lighted and provides a safe way for people to get to the Presque Isle Middle School and the Northern Maine Community College. There are plans in place to connect this new walk-way to the rest of the City's Bike-Walkers Path and sidewalk system.

The next segment is being designed for construction in 2009. That piece will finish the walk along Edgemont Drive connecting to the existing walk-way on Central Drive.

Throughout the summer the crew worked on many small projects such as replacing rusted or plugged culverts, roadway shoulder grading and ditching, as well as repairing several catch basins and pipes. A lot of this work is done in preparation for paving or chipsealing of roadways and some of it is just ongoing maintenance work.

Pavement overlays were done on Allen Street, Whitney Street, Griffin Street, and the Lathrop Road. On Main Street, we milled and paved 3,000 feet in one southbound lane from Chapman Street to the Urban Compact Line.

Lombard Street and Dyer Street were delayed until 2009 due to the increase in asphalt prices.

During August, we contracted with Sealcoating, Inc. to seal cracks on State Street, Mechanic Street, Industrial Street, and Riverside Drive. They also did some crack-sealing on the Industrial Park.

Above: Presque Isle Middle School portion of sidewalk project

Above: Northern Maine Community College portion of project

On the personnel side of the Department: In January, Laurie Michaud joined the Department as an Administrative Assistant. We know Laurie will be an asset to the Department.

Peter Greenier, a forty-seven year veteran of the Public Works Department retired in June. Peter worked his way up from a laborer to driver, equipment operator and became the foreman in 1996. He saw a lot of changes in the way we maintain our roads, summer and winter, and was a valuable source of information and history.

Peter Greenier, being presented with a brass clock — with 2008 City Council Chair, Walt Elish.

(Photo courtesy: Kathy McCarty/Star Herald Photo)

Following Peter's retirement, Ronald Soucier, who has been with the Department for eight years, was promoted to the Foreman's position.

Respectfully submitted,
Gerry M. James
Director, Public Works

During our snow season from 2007 into 2008, we received between 160-200 inches of snow.
The County average is usually between 100-120 inches.

VISION STATEMENT

The Presque Isle Recreation and Parks Department strives to provide the citizens of Presque Isle with programs, facilities and opportunities that encourage healthy lifestyles and foster a sense of community belonging, now and in the future.

Parks and Facilities:

- William V. Haskell Community Center
- Indoor Pool
- E. Milton Grant Community Pool and Playground
- Mantle Lake Park
- Arnold Brook Lake Park
- Riverside Bicentennial Park
- Bike Path
- Downing Park
- Veteran's Park
- Peace Park
- Double Eagle II Park
- Bishop's Island Ball Field

Bike Path during the 2007-2008 season record snowfall.

The Presque Isle Recreation and Parks Department employs 7 full-time staff, including: two maintenance staff, an aquatics director, assistant aquatics director, programmer, administrative assistant and director. The Department runs nearly 100 different programs annually for infants to seniors. The Department also cares for, and maintains, over a dozen parks and facilities covering more than 90 acres of property throughout the community.

Although the year was marked with many difficult challenges, like sky-rocketing fuel prices and record-breaking snowfall, the Presque Isle Recreation and Parks Department continued to offer accessible and comfortable facilities as well as fun and affordable programs for its residents.

The Department served about 40,000 users at our aquatic facilities including the Indoor Pool and Outdoor Pool in 2008. Nearly 3,900 local youth utilized our programs for non-aquatic activities, while 1,400 adults took part in our programs. Some of the new programs successfully added in 2008 included family karate, archery and a senior citizen fall foliage trip.

Also in 2008, a great deal of attention was placed on the Indoor Pool. As with most aging facilities, a time comes when a threshold decision needs to be made on whether to “fix it or forget it.” That was the case this past year with the Indoor Pool as upgrades and efficiency improvements would be necessary if the Department was to continue to offer quality aquatic programming in the future. The City Council, along with support from the Recreation and Parks Advisory Board, and many, many community members felt that the Indoor Pool was too great an asset to this community and the planning for such improvements began. One of the steps in this process was to reduce costs and increase efficiency at the facility. The Department began working with Honeywell on a “mini-retrofit” project that would significantly decrease day-to-day costs on utilities. A portion of the project was completed in 2008, which involved the installation of a pool cover and new lighting. The remainder of the project, including a completely new heating system, will be completed in early 2009. Other improvements at the Indoor Pool included a complete renovation of the lobby and locker rooms. In a very successful effort to improve the look and feel of the facility, family locker rooms were added, new flooring laid and a ceiling was installed. Now the facility is more inviting and comfortable for our users.

Archery was added as part of the Department's 2008 new programs

Work being done at the Indoor Pool

The Indoor Pool was once again host to the Presque Isle High School's home swim meets as well as the Northern Regional Special Olympics swim meet. This year's event included 91 adventurous swimmers and over 40 volunteers to help complete the sensational event.

The Department once again headed up the Annual Community Spirit Day with much success. On September 6th, Peace Park (Parsons Street) was the focus as dozens of volunteers pitched in to scrape, paint, plant, and prune their way to a wonderful spruce-up of the park. Thanks to a grant awarded by Lowe's Home Improvement, as well as dozens of their employees and many other volunteers, the park now looks great.

**Turnout was good for the 2008 Community Spirit Day.
Volunteers made minor repairs and added a coat of paint where needed.**

Participants came in all sizes and ages!

Photo directly above: Constructing birdhouses kept some participants busy at Peace Park. Here, Carrie Lambert, of Lowe's, and Matt Bridges help youngsters build birdhouses using kits donated by Lowe's. The children are, from left: Mitchell Dumais; Rachel Ayotte; and Bridges' sons: Will and Grant Bridges.

Above: Emily and Grace Bemis, daughters of Frank and Ellen Bemis, were two of the younger volunteers helping spruce up Peach Park, located off Parsons Street. Here, the sisters, trying to avoid paint drips, practice their painting on a piece of playground equipment.

Community Spirit Day Photos are Courtesy of Kathy McCarty of the Star Herald/Northeast Publishing

Riverside Park was the recipient of some needed improvements as the aged cedar shrubs and the cedar post fence were removed. In their place, a dozen varying variety of trees were planted, as well as installing 500-feet of new cedar fence. This change not only improved the look of the park, but effectively opened up its visibility.

Soccer for Grades 3 and 4

The Community Center Committee continued working hard as a site for the new community center was selected. The 8-acre site, along Chapman Street was selected for its size and great centralized location to downtown and the Department's other facilities. Three out of the four parcels of land for the site were acquired by the City and the final parcel will hopefully be obtained in 2009. Conceptual designs of the new facility on the site were also completed this year. In the coming year, the Committee hopes to complete a feasibility study to determine the communities giving capacity for the future fundraising campaign.

The Department purchased a utility vehicle (UTV) to assist staff in the care and maintenance of the City's field's and parks.

We are continually looking for new ideas and citizens with special talents willing to share with our community. If you have any ideas or suggestions, please contact our office.

Respectfully submitted,
Chris Beaulieu
Director, Recreation and Parks

Resource Management

(Human Resources, General Assistance and Payroll)

City Hall, 12 Second Street

Human Resources and Payroll Hours: 8:00 AM-5:00 PM Monday-Friday

Human Resources: 764-2522 **Payroll:** 764-2518

Email: lwinslow@presqueisleme.us

General Assistance: 764-2515

General Assistance Hours: 8:00 AM-5:00 PM Monday *and* Thursday

The General Assistance office is *CLOSED* Tuesday, Wednesday, and Friday

Recruitment and Staffing

- In January, Laurie Michaud began her duties as the new Administrative Assistant at the Public Works Department following the retirement of a long time employee.
- James Francomano was hired in February as the new City Planner in the Planning and Development Department.
- Matthew Cummings and Peter Johnson joined the Police Department in February and March.
- In April, James Anderson became our new Scale Operator at the Landfill, replacing Jeff Lowe.
- Christopher Perkins and Benjamin Whittaker joined the Public Works team as an Operator and Truck Driver. Also at the Public Works Department, in October, Calvin Crouse was hired as a Truck Driver.
- At the Library, Lisa Shaw was promoted from the Children's Library to be our new Reference Librarian.
- Jennifer Morrison and Sue Cook replaced two long-tenured employees Janie Smith and Ann Kaiser at the Forum.
- Tony Michaud replaced Ross Hubbard as the Assistant Tax Assessor in the Planning and Development Department.

Wellness Program

The following lunch n' learn programs were held:

- Healthy Eating
- Plan Before You Plant
- Grow a Garden Anywhere
- Garden Gourmet

"Eat Your Way to Better Health" books were ordered and distributed to every employee. The Wellness Committee attended the Regional Wellness Coordinators Conference. The Wellness Program sponsored the co-ed softball team. Employees had an opportunity to have their wellness profiles done by the staff at Maine Municipal Association.

Also in 2008, as part of the United Way campaign, apples and apple cider were purchased and distributed for all employees to enjoy.

The Wellness Committee made our own holiday fruit baskets to distribute to all of the City's departments. The baskets were beautiful and well received. In addition, employees received a HOPE wellness calendar for 2009.

The Annual City Safety-Wellness Picnic is always well attended and is a family favorite.

Resources Department

Within the resources/personnel section of the Department, our year was filled with activity: Terri Stubblefield, General Assistance Administrator/Human Resources Clerk, had her hours changed from 16 hours per week to work 32 hours a week. The position was trained in various functions to include Worker's Compensation and Risk Management claims; Union negotiations for 3 of the 7 City contracts were carried over from the previous year and mediations finished in June; the Department participated in the Leadership Presque Isle Program, an effort lead by the City Manager; Resources attended a couple of local job fairs in 2008; the Department was included in the manager's audit.

We participated in the City Manager's "Have grill, will travel" program for the various departments. This was a good year to try to purge our files. Following the *Record Retention Laws*, we were able to discard old materials and reorganize them.

Also, we were able to celebrate a health insurance low loss ratio of about 65% on average—this means a saving in health insurance costs; the Internal Revenue Service changed its submission process for retirement plans and we are now required to submit our retirement plans on a 5-year cycle. Prior to submission, our 401 (a) retirement plan needed to be restated first. It was restated and submitted by the deadline; Personnel Rules and Regulations were updated and distributed in 2008 to all employees.

We worked with the City's Audit Committee to ensure our fiduciary responsibilities for our retirement plans were on target; some restructuring was done within a couple of departments: the Development Specialist, George Howe, from the Planning and Development Department was handling emergency management functions, and our Police Chief was the City's Health Officer. Realizing this wasn't as efficient as it could be, our Development Specialist is now the Health Officer, and the Fire Chief, Darrell White, will now be our Emergency Management Director. New job descriptions were established to accurately reflect the changes in responsibilities.

We participated in a resume fair at the University of Maine at Presque Isle and our Department compiled employee demographics.

Finally, in lieu of a Christmas Party for employees in 2008, each employee received a \$15 grocery gift card.

The following workshops/seminars were attended by our Department:

- HireSmart
- Department of Health and Human Services (DHHS) statewide conference on General Assistance issues.
- National League of Cities for Risk Management
- Annual Health Trust Meeting
- Health Trust Administrative Workshop
- Governmental Affairs Conference
- Maine Municipal Association Annual Convention

Safety Program

The following training was offered to City employees in 2008:

- Lock out/Tag out
- Confined Space Simulation
- Personal Protective Equipment
- Hazard Communication
- Trenching/Excavation
- Bloodborne Pathogens
- Video Display Terminal
- CPR/First Aid/AED
- Respiratory Fit Tests
- Fire Extinguisher
- Universal Waste
- Grounds Keeping

General Assistance

General Assistance processed over 400 applications and assistance was provided to 230 community members for a total cost of \$42,407.69.

The Maine Department of Health and Human Services, Office of Integrated Access and Support reimbursed the City \$21,119.85. The City received \$123.39 from the Social Security Administration in reimbursement and one recipient repaid the City \$431.95.

Total amount expended in each General Assistance category:

| | |
|-------------------|-------------|
| Housing: | \$34,589.99 |
| Food: | \$ 1,047.02 |
| Fuel: | \$ 1,890.01 |
| Utility: | \$ 872.77 |
| Rx/Prescriptions: | \$ 642.65 |
| Medical: | \$ 283.45 |
| Funerals: | \$ 1,459.00 |
| Miscellaneous: | \$ 1,622.80 |

The City Manager issued a directive that an on-going supplemental heating program be established in order to help community members that did not qualify for other heating assistance programs. A program, known as the Home Energy Assistance Trust (HEAT), was implemented with generous donations coming from both individuals and businesses.

HEAT is funded with private donations and from the sale of paper oil barrels, in \$1.00 denominations, available from tax clerks at the tax collection windows in City Hall.

In May, The Belfast Maskers Community Theater group of Belfast, Maine, held a benefit performance of a play by Presque Isle playwright, John Carriani. John and performance organizers donated \$500 for the HEAT program. Many heartfelt thanks are extended to the Belfast Maskers, the Mark and Emily Turner Memorial Library for their bottle drive, as well as to all of the individual community members, City staff, and business owners who bought, and continue to buy, the \$1.00 oil barrels.

Allison Sweetser is shown here purchasing a \$1.00 paper fuel barrel. Accepting Allison's donation is Tax Clerk, Linda Brewer in the Finance Department.

Terri attended a county-wide Winter Heating Forum at Northern Maine Community College to address the rising cost of heating oil, the issues our community's elder and low-income populations face in heating their homes, as well as the limitations expected with Federal energy funds. Over 100 people attended and many community-based

solutions and alternatives were examined.

Terri also attended a statewide DHHS video-conference in Caribou. The conference provided a forum for General Assistance Administrators to address the emergency issues that were anticipated to arise with the increasing cost of heating oil. It was recommended, in order to ensure that funds would be used for those in real need, that Administrators verify heating oil tank levels prior to authorizing assistance.

Payroll

The City of Presque Isle paid a total of \$4,553,632.95 in total salary in 2008. A total of 257 full-time, part-time and seasonal employees were paid through the payroll office this year.

Respectfully submitted,
La Niece Dampf Winslow,
Director, Resource Management
Cecile Wood, Payroll Clerk

Terri Stubblefield, General Assistance Administrator/Human Resources Clerk

2008 City Council Chair, Walt Elish presenting Presque Isle Industrial Council Executive Director, Larry Clark, with a statement of appreciation for his 40 years of service to the City of Presque Isle/Presque Isle Industrial Council.

2008 EMPLOYEE RECOGNITIONS

Employees who celebrated a 5-year incremental anniversary with the City were honored on January 5, 2009. Left to right: Tony Robichaud, Grant Spinney, Larry Clark, George Howe, Chris Beaulieu, LaNiece Winslow, Sonja Plummer Morgan, Scott Wardwell, Dale Morrison, Darrell White, Bill Scull, Danny Corey, and Gerald Michaud.

5 YEAR ANNIVERSARY — since 2003 – 7 employees:

Chris Beaulieu, Recreation and Parks
Daniel Corey, Police Department
George Howe, Planning and Development
Gerald Michaud, Airport/General Aviation
Sonja Plummer Morgan, Library
Scott Wardwell, Airport
La Niece Winslow, Resource Management

10 YEAR ANNIVERSARY — since 1998 – 4 employees:

Dale Morrison, Fire Department
Tony Robichaud, Fire Department
Bill Scull, Police Department
Grant Spinney, Fire Department

20 YEAR ANNIVERSARY — since 1988 – 1 employee:

Darrell White, Fire Department

40 YEAR ANNIVERSARY – since 1968 – 1 employee:

Larry Clark, Presque Isle Industrial Council

Recycling Center/Transfer Station/Universal Waste Facility

Hours: 7:30 AM-4:00 PM Monday-Friday 7:00 AM-12:00 Noon Saturday
Telephone: 764-9393

The Landfill was the scene of continued construction activity in 2008. The final capping of two sideslopes of the landfill, which began in 2007, was completed. The capping system is comprised of multiple layers of soil and geosynthetic materials that will keep precipitation out of the landfill while protecting the environment by keeping contaminated leachate inside the landfill. The sideslope capping project was Phase I of a series of three construction projects that will be completed in 2010 at a total cost of \$6.31 million.

The Phase II project, which is the installation of a landfill gas management system, was started in 2008. The Maine Department of Environmental Protection approved the air emissions license. The gas management system will collect and flare methane, thereby reducing the impact of greenhouse gas on the atmosphere. After receipt of the air emissions license, landfill gas wells were installed in the landfill and bids were received for the remainder of the system. This \$800,000 project will be awarded and constructed in 2009.

The Phase III project, consisting of a horizontal expansion of the existing landfill, will occur in 2009-2010. A license application for the expansion was submitted to the Department of Environmental Protection for approval. An application for Public Benefit Determination was also submitted and approved during the year. In preparation for the expansion project, clear-cutting of 15 acres of trees was completed. All of the felled trees were processed into bio-mass fuel, which was used to generate electricity. A section of new perimeter road was also constructed along the north side of the landfill to provide access to the new expansion.

Tonnage of wastes delivered to the Landfill dropped 4 percent due to the declining economy. Tires and scrap metal continued to be removed periodically for recycling during the year. The leaf collection program and Merry Mulch (Christmas) tree recycling enjoyed continued success. The harvesting of trees in accordance with our Forest Management Plan was completed on the landfill property. A new Cat 816 landfill compactor was purchased to replace an older model. The truck scale located at the landfill was rebuilt to maintain its accuracy.

Our recycling program completed its nineteenth year in 2008. Over 44 million pounds of

material have been collected and marketed by the Recycling Center since the inception of the municipal recycling program in 1990. A recycling promotional campaign was conducted by distributing blue bags and information on blue bag recycling to the 2,400 homes in Presque Isle that have curbside pickup of their refuse. The tonnage of recyclables collected at the Recycling Center from our member towns declined by more than 10 percent during the year, mostly due to the recession. As residents reacted to the slowing economy, fewer items were purchased resulting in less material being recycled. The stock market declined dramatically late in the year and the prices for recyclables followed suit.

The Universal Waste Facility, located immediately adjacent to the Recycling Center, completed its sixth year of operation. A total of 67,998 pounds of Universal Waste was shipped out for recycling in 2008. Maine law mandates that all businesses recycle Universal Wastes, which include fluorescent light bulbs, mercury thermometers, thermostats, televisions, and computer monitors. A new State law enacted in January 2005 required homeowners to recycle fluorescent bulbs and this law was expanded in July 2006 to include televisions and computer monitors.

The Department hosted a one-day collection event for Household Hazardous Waste (HHW) at the Recycling Center that covered the central and northern Aroostook area. This was the third HHW collection event in four years. For the first time, this HHW event included the collection of outdated and unwanted medications, both prescription and over-the-counter. This cooperative effort will reduce the potential for accidental poisonings and the threat of water pollution.

In conclusion, I would like to thank all of the employees of the Department for their assistance throughout the year. James Anderson was hired as Scale Operator in April and joined Landfill Supervisor Don McIntosh, Recycling Center Supervisor Don Saucier, Transfer Station Operator Jason Dean, Equipment Operators Louis Doucette, Jr. and Ben Whittaker, and Administration Assistant Bev Labbe in providing the highest caliber of dedicated service to the public. The Department would also like to thank all of its citizens who avail themselves of the opportunity to recycle. Recycling extends the life of the Landfill, which will ultimately save taxpayer dollars.

Respectfully submitted,
Dana H. Fowler, P.E.

** IMPORATNT NOTE: Taxes were assessed in a supplemental billing due on 02/19/09.

Tax Club

The Tax Club of the City of Presque Isle is conducted on a 12 payment plan, or one payment per month from January to December. Previous year's taxes are used as a basis for payments until assessments are made by the Assessor, at which time adjustments will be made if necessary, to the December payment.

Payments must be made on or before the 20th of each month in order to qualify for the "NO INTEREST" benefit. All previous year's taxes must have been paid in full in order to enroll in the Tax Club. Enrollment is in December and the first two weeks of January each year with the Tax Collector's Office, City Hall, 12 Second Street, Presque Isle, Maine.
